Answered: 90 Skipped: 0

We would like to apologize for the wording of question 11 on our survey and for the changes in the wording of the mission statement of the board. It was not our intention to narrow or broaden the scope of practice of the board or subvert dialogue around a possible name change for the board. Please join us for the roundtable on May 21 to discuss the results of the survey in more detail including discussing the possibility of a name change for our board.
